COMPANY BACKGROUND

Company Background

Green Symphony Technology Sdn Bhd or “**GSTSB**” was formerly known as Bumi Earth Corporation Sdn Bhd and established on 09 July 2009. GSTSB is a start-up organization in Melaka, Malaysia that offers energy saving solution and green technology solution for public and private sectors. GSTSB is specializing in a wide range of green technology, commercial/residential indoor and outdoor lighting, including:

- *Office and Utility Lighting*
- *Street Lighting, LED etc.*
- *Industrial Lighting*
- *Architectural Lighting*
- *Green Technology*

GSTSB has identified three keys to its success. The first key success is to offer energy saving solution to public and private sectors by adoption of Energy Performance Contracting (EPC) approach to implementing energy saving programs with special emphasis on zero or minimal upfront capital investment. The second key is to ensure that all of its offerings are based on economic justifications; third, the solution should make sense beyond the environmental considerations because it has long-term economic value.

GSTSB will be targeting Malaysian Government Agencies’ office and building in the startup and will expand to private sectors subsequently. GSTSB will work closely with several government agencies to allow for rapid implementation of high performance LED Lights to reduce electricity consumption and ultimately save related operational expenditure in energy saving.

This group is growing at 7% and there are 23 potential customers in the area. The second customer group is Malaysian Private Agencies; an environmentally conscious group that have sought for service provider to help them implement their green energy objective and social responsibility to the public.

Combining that capability with the strength of our product line and experienced engineering team, you can count on GSTSB to support you for your green technology needs.

Our LED products are providing the highest quality lighting products. We provide solutions to both new and customized solutions to retrofit existing homes, offices and commercial premises. Moreover, we have a team with experience in Energy management to assist customer in achieving maximum energy conservation through comprehensive energy auditing on their premise. Customer has the option to implement the Energy Saving Measures either with direct procurement or through Energy Performance Contracting (EPC).

BUSINESS ACTIVITY

The Business activity of **GSTSB** develops according to two main lines:

- consulting and engineering
- implementation of technological projects

Consulting and Project Design

GSTSB performs consulting, planning, organizing activities as well as works direction and project management:

- Working out of general projects
- Feasibility studies / technical reports / business plan
- Financial analyses
- Market researches, analyses, suppliers checking
- General planning
- Detailed designing (structural-technological design)
- Contract assistance
- Project management
- Works scheduling
- Works direction
- Assistance to installation and start-up
- Testing
- Personnel training
- Know-how and technical assistance

MISSION AND VISION

Our Mission and Vision

- The mission of Green Symphony Technology Sdn Bhd is to be the leading provider of innovative, high quality lighting fixtures and systems to commercial, municipal and utility markets, interactive lighting technologies that truly impact the environment while delivering quality sustainable lighting.
- We strive to deliver consistently superior value to our customers and their clients. This commitment permeates everything we do, driving us to continuously improve our products and processes to fulfill the need for quality lighting solutions. GSTSB offers an exceptionally strong portfolio of quality products, encompassing a comprehensive selection to meet a wide variety of indoor and outdoor lighting applications. At the core of our new product development is the commitment to utilize the very latest lighting technologies that improve lighting quality, improve efficiency, and enhance the environment through reduced energy consumption.
- Our Vision is to become a major force in the residential, commercial and governmental energy and lighting industry. We want to brand our LED Product as a leader in quality, innovation, pricing and customer service. Our goal is to meet the energy needs of a changing environment by providing superior products and extraordinary service at a competitive price. We aspire to carry a reputation in the marketplace for developing and delivering high quality, eco-friendly energy solutions for use in residential, commercial and governmental applications. We can achieve this by developing cutting-edge products and maintaining a close understanding of market trends and needs.

PRODUCTS & SERVICES

PRODUCT

BRAND PRODUCT - Q-RAY™ LED STREET LIGHT

- * Designed to comply with standards set by IESNA, ANSI, British Standards BS5489 & BS EN 13201.
- * In-line with Energy Star requirements
- * Tested to latest LM63:2008 standards for LED Luminaire.
- * Designed product lifetime of 70,000 hours (16 years)
- * Power factor of >0.94 with optical efficiency of >90%.
- * SIRIM/JKR Certification
- * ISO 9001:2000/ ISO14001:2004 Quality Management System Standards
- * Designed and manufactured in Malaysia (Buatan Malaysia)
- * LED Tube with UL, LED Street Light, LED Bulb, LED Downlight etc.

PRODUCT CERTIFICATIONS (LOCAL & INTERNATIONAL)

Energy Star by US
Energy Star by Malaysia

Why Convert to LED Lighting:

- * Consumes less electricity (by up to 85%)
- * Better lifetime (up to 50,000 hrs)
- * Green, No Mercury – Environmental Friendly, No special disposal procedure
- * Directional, better lumen/watt – Minimum light pollution
- * No buzz, flicker – Improved human comfort
- * Start instantly, dimmable – Suitable for security and smart control system

SERVICE

GSTSB to a Customer First attitude and provide superior service in fulfilling customer needs. We resolve to provide outstanding service before and after the sale, and take pride in maintaining long term relationships with our customers. From product selection and specification through delivery and beyond, GSTSB is focused on providing the information, assistance and product when needed. Simply put, our company strives to be easy to do business with. At GSTSB our people apply their lighting experience and expertise to enhance the overall customer experience. Combining that capability with the strength of our product line and expert agency sales force, you can count on GSTSB to support you for all your lighting needs.

Our products are designed to dramatically reduce energy costs and consumption, while increasing lighting performance. In all parameters, we are committed to a global responsibility for providing the highest quality lighting products in conjunction with leading the way to a brighter future for the earth!

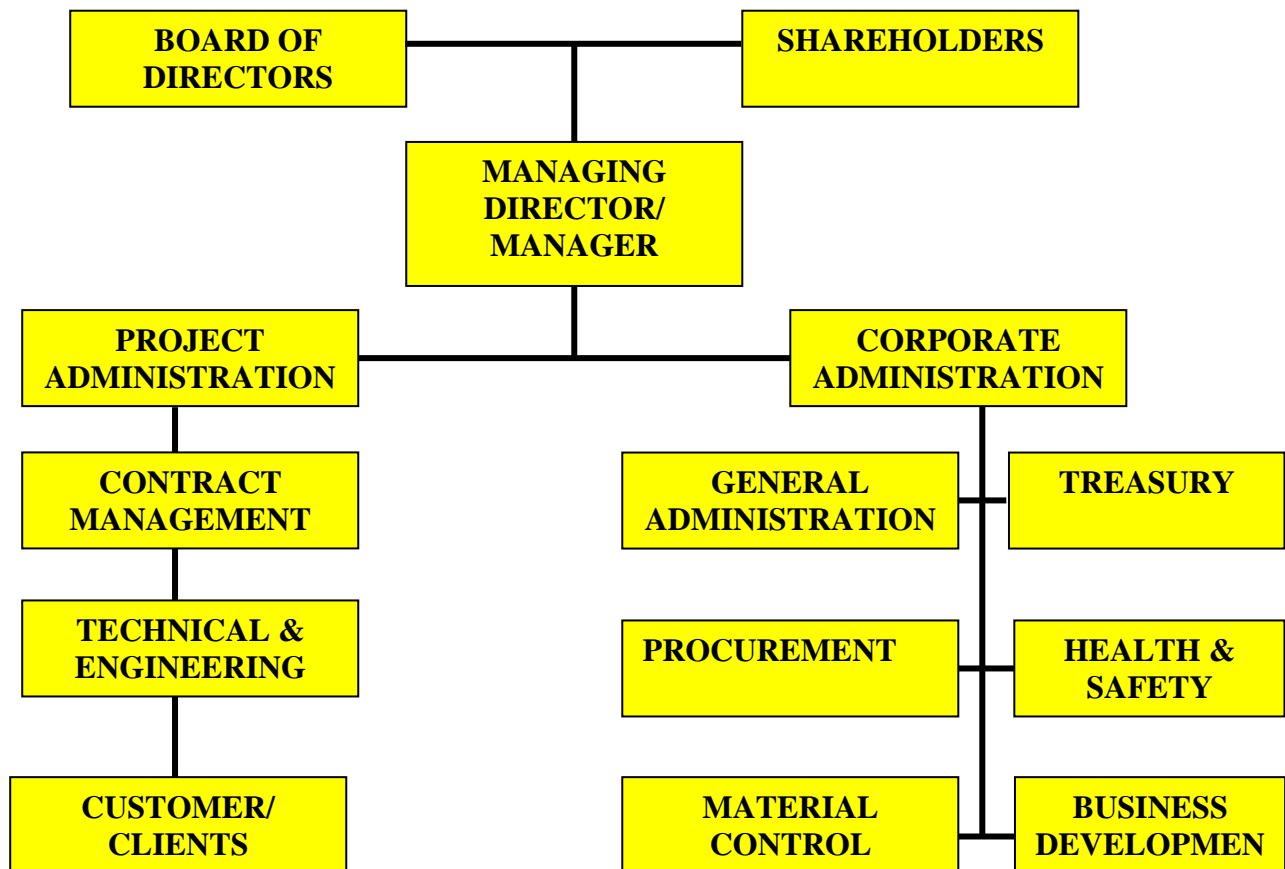

Our quality products and services are provided through a personalized assessment of each different scenario.

- * Presently serving the markets of Singapore, ASEAN and USA.
- * We are a one-stop solutions provider for LED lighting.
- * We provide solutions to new homes, offices and commercial premises.
- * We customize solutions to retrofit existing homes, offices and commercial premises
